** Presentations by PEER Staff & Principals

The Review Committee would like PEER to address how the recommendations made by past PEER review committee reports (Report Nos. SSC 01-05 and SSC 03-04) have been incorporated and/or how PEER plans to address and progress on--if there are still opportunities in the future--the following issues:

1. Improved information dissemination and education and outreach activities.
2. Technology transfer activities.
3. Increased business, industry, and government partnering.
4. Level of understanding, acceptance, and use of PBEE by the California practicing professional community.
5. Coordination with other earthquake engineering research organizations.

As such, the Committee would like to hear PEER's viewpoints on the opportunities and impediments to fulfilling its objectives pursuant to identifying areas where the California Seismic Safety Commission would be able to help.

The Committee would also respectfully ask that all of the PEER participants to this Meeting be present throughout the Meeting including during the interactive discussion period in the afternoon, i.e. from 10:00 am through 4:30 pm.
